A replay of the webcasts will be archived on the Company's website for 90 days following the presentations.

### **About Autolus Therapeutics plc**

Autolus Therapeutics plc (Nasdaq: AUTL) is a commercial-stage biopharmaceutical company developing, manufacturing and delivering next-generation T cell therapies and candidates for the treatment of cancer and autoimmune disease. Using a broad suite of proprietary and modular T cell programming technologies, Autolus is engineering precisely targeted and controlled T cell therapies that are designed to better recognize target cells, break down their defense mechanisms and eliminate these cells. Autolus has a marketed therapy, AUCATZYL<sup>®</sup>, and a pipeline of product candidates in development for the treatment of hematological malignancies, solid tumors and autoimmune diseases.
