

Autolus Therapeutics to Present at the Jefferies 2018 London Healthcare Conference

October 30, 2018

LONDON, Oct. 30, 2018 /PRNewswire/ -- Autolus Therapeutics plc (NASDAQ: AUTL), a clinical-stage biopharmaceutical company developing next-generation programmed T cell therapies, today announced that Dr. Christian Itin, chairman and chief executive officer, will present at the Jefferies 2018 London Healthcare Conference, on November 14, at 10:40 am GMT.

A webcast of the presentation will be available on the investor relations section of the company's website: <https://www.autolus.com>

About Autolus Therapeutics plc

Autolus is a clinical-stage biopharmaceutical company developing next-generation, programmed T cell therapies for the treatment of cancer. Using a broad suite of proprietary and modular T cell programming technologies, the company is engineering precisely targeted, controlled and highly active T cell therapies that are designed to better recognize cancer cells, break down their defense mechanisms and eliminate these cells. Autolus has a pipeline of product candidates in development for the treatment of hematological malignancies and solid tumors. For more information, go to: <https://www.autolus.com>
